

DISCIPLESHIP GROUP ASSESSMENT

Coaching Resource

This assessment is to provide some key questions that a Discipleship Coach may use as they are coaching the discipleship group leaders that they are working with.

There are several key ideas that you need to evaluate during every assessment:

1. The spiritual health of the leader:

- How are you currently doing (personally, spiritually, and emotionally)?

2. The ongoing discipleship of those within the group:

- What is your group doing that is helping them grow to be disciples of Jesus?
- Take time to breakdown each individual in the group and make sure the leader knows their **Stage** of discipleship and the **Next Step** that they need to take.

3. The development of an apprentice:

- Who are you currently Apprenticing towards leadership?
- What step of the apprenticeship process is this leader currently working on (see the Developing Apprentices booklet)?

4. The multiplication-preparation of the group:

- What are you currently doing to prepare your group for multiplication?
- What stands in the way of your group multiplying?

5. The current needs and victories of the group:

- What people victories have you seen in your group? Would you be willing for us to share some of these victories?
- Do you have any concerns about your group that you could use some help with?
- How else might the Discipleship Ministries give you assistance as you disciple others?
- What can we be praying for you about?

Be sure to establish the next meet time between the discipleship group leader and the coach. We ask that you meet quarterly, so aim for three months.
